Introduction

The E storage server series rackmount not only has the stylish appearance, but also has the functionality and flexibility to make the E series a new breed of storage servers. As SAS and SATA technology has become a more cost effective solution, iStarUSA has taken a step forward to prepare the migration of new technology and provide the mini SAS backplane to support both latest SAS and SATA hard drives. We also provide redundant power supply to ensure total up time of mission critical server applications.
